

Profile

Okumura was established in 1907 based on two key principles enshrined in the corporate mottoes “steadfast management” and “sincere operation.” The steady growth achieved over the years has been made possible through the unflagging support of our customers.

Okumura’s main business activities include civil engineering projects for railways, roads, power station facilities, sewage and water works, and others. In the area of construction are projects such as houses, public facilities, medical facilities, and office buildings. The Company has developed technology at the highest level, with achievements including the seismic isolation system used to construct Japan’s first earthquake-absorbing building. In the area of environment-related technology, Okumura has developed techniques for 100% recycling of demolished concrete, and natural greening of concrete surfaces on buildings.

Okumura understands what an important mission it is to provide a better environment for the future. Accordingly, the Company is dedicated to contributing to meaningful social infrastructure investment and to always being a corporation regarded highly by society. It will achieve this by continuing to develop as an all-around construction company based on steadfast business management.

Disclaimer Regarding Forecasts and Projections

This Annual Report includes forecasts, projections and other predictive statements that represent Okumura's assumptions and expectations in light of currently available information. These forecasts, etc., are based on industry trends, circumstances involving clients and other factors, and involve risks, variables and uncertainties. The Okumura Group's actual performance results may differ from those projected in this Annual Report. Consequently, no guarantee is presented or implied as to the accuracy of specific forecasts, projections or predictive statements contained herein.

We would like to thank our shareholders for their continuing support and encouragement, and wish each one of them the greatest success in their endeavors.

A general overview of our business performance for the fiscal period of March 2018 (April 1, 2017 to March 31, 2018) is provided below.

Fiscal 2018 Results

During the period under review, the Japanese economy showed weakness in some areas, but underwent a moderate recovery trend, as reflected in developments such as exports picking up due to the growth in overseas economies and heightened domestic demand on the back of improvements in corporate earnings. In this climate, the operating environment surrounding the construction industry remained stable due to resilient public-sector investment and a recovery in capital investment.

In these circumstances, the Company's consolidated net sales increased 10.3% year on year to ¥223,928 million. Meanwhile, as a result of factors such as an improvement in gross profit from civil engineering projects and construction work, consolidated gross profit increased 21.1% year on year to ¥32,766 million, operating income increased 35.8% year on year to ¥15,854 million, and net income attributable to owners of the parent increased 11.4% year on year to ¥15,164 million. As such, sales and profit increased from the previous year.

The Company decided to pay a dividend of ¥184.00 per share for the period ended March 31, 2018 based on its basic policy regarding profit sharing.

Looking Ahead and Key Strategies

The Japanese economy is expected to continue on a gradual recovery trajectory, driven by growth in the corporate sector such as improvements in production and exports. In the construction industry, despite concerns over rising construction costs such as material prices, the business environment is expected to remain solid, given that construction investment is expected to continue to show underlying strength due in part to the rush demand stemming from the increase in the consumption tax rate.

Under these circumstances, the Okumura Group has been engaged in efforts to enhance productivity of the construction business and its brand as well as diversified our earnings base in accordance with the Medium Term Business Plan, in which fiscal 2016 has been set as the first year. Combined with the robust business environment, such efforts are gradually starting to yield results. Reaching the last year of the Medium Term Business Plan, we will make concerted efforts to achieve the performance objectives set in the Plan while moving forward with our initiatives aimed at building a solid management base.

Specifically, in the construction business, we will continue to promote technology development that will lead to streamlining and labor-cost saving, increase business efficiency through the utilization of ICT and the accelerated adoption of Construction Information Modeling (CIM) and Building Information modeling (BIM), reinforce our design capabilities and ability to propose solutions to our customers, promote technology development that meets the needs of our clients, and refine our proprietary technology.

In real estate operations, we will be expanding the rental business by acquiring quality, revenue-generating real estate and effectively utilizing the properties in our portfolio, while making strategic investments in order to expand our business domains.

For the future, Okumura will continue to apply all of its resources with the aim of responding quickly and flexibly to the changing operating environment, thereby reinforcing and diversifying our earnings base in accordance with our corporate philosophy, which has endured through the many years since the Company's founding. This will enable Okumura to maintain the trust and confidence of our shareholders.

The Company looks forward to the continued support and guidance of our shareholders.

Review of Operations

Major Projects Completed

CIVIL ENGINEERING

Shin-Meishin Expressway Higashiuneno Tunneling

Work period: July 2012 to January 2018
 Construction length: 2,624m
 Tunnel: 4,121m of excavation and 427,000m³ of mucking
 Embankment: 243,000m³
 Bridge substructure: 4 abutments and 5 piers
 Fly-rock protection: 305m

Yokohama Ring Expressway North Line Shield Tunneling

Work period: June 2008 to June 2017
 Earth pressure shield machine diameter: φ12.49m
 Segment outer diameter: φ12.3m
 Shield tunneling: 11,030m
 4 sections of diverging/merging widening work
 Precast slab construction: 10,821m
 1 launch shaft structural work
 Removal of surplus soil: 1,362,374m³

Road Construction on National Route 45 in Tsugaruishi

Work period: November 2014 to September 2017
 Tunnel length: 491m
 Excavation: 387,000m³
 Embankment: 220,000m³
 Slope: 33,000m²
 6 box culverts
 1 retaining wall and drainage structure construction
 Bridge substructure: 2 abutments for Nanata River Bridge (60 cast-in-place piles)
 1 electrical room

2015 Iruma River Shishikai Sluice Reconstruction

Work period: February 2016 to March 2018
 Newly constructed sluice: 76m (single channel 2.1m in base and 2.1m high)
 Hydraulic engineering: 32,900m³ of embankment fill
 Ground improvement: 1 deep mixing treatment
 Sluice structure: 76m of box culvert with 600m³ of concrete
 Floodgate facility: 1 operation control equipment and auxiliary equipment
 Hydraulic engineering: Bank protection foundation work, slope pavement bank protection, restoration of water channel at the bank foot, auxiliary road construction, removal of existing sluice

BUILDING

Suginami Incineration Plant (Clean Authority of Tokyo)

Work period: September 2012 to September 2017
 Structure: Steel, RC, SRC
 Total floor space: 32,211.77m²

Mapletree Chiba New Town Logistics Center (Distribution warehouse)

Work period: September 2016 to December 2017
 Structure: Steel
 Total floor space: 100,906.26m²

Heijokyu Izanai-kan

Work period: August 2015 to February 2018
 Structure: RC
 Total floor space: 6,755.59m²

Iyo City Government Office Building

Work period: October 2014 to July 2017
 Structure: RC (seismic isolation structure)
 Total floor space: 6,284.21m²

Orders Received

CIVIL ENGINEERING

Soil Storage Facility Construction for Futaba 1 Interim Storage Facility

Work period: May 2017 to March 2021
 Reception and separation facility: Design and construction, reception and separation work
 Soil storage facility: Design and construction, site preparation, soil storage
 Soil transportation

National Route 45 Kanuka Area Road Improvement Work

Work period: November 2017 to February 2020
 Excavation: 3,300m³
 Embankment: 450,000m³
 Slope: 36,470m²
 1 retaining wall, 5 box culverts
 1 ground improvement and subgrade drainage
 Bridge substructure: 1 abutment, 3 piers

National Route 106 Katsu Area Road Work

Work period: December 2017 to October 2019
 Tunnel: 559m of excavation and 44,500m³ of surplus soil removal
 Bridge superstructure: 1 span
 Bridge substructure: 1 abutment
 1 temporary road

Improvement of Hanshin Umeda Station and Expansion of the East-West Underpass

Work period: February 2015 to March 2023
 Implementation of soil contamination countermeasures (natural contaminants)
 Earth retaining wall (SMW)
 Temporary decking
 Ground improvement (jet grouting)
 Removal of existing structures
 Cut-off wall installation
 Reconstruction of stairs (No. 18 exit stairs)

BUILDING

Hotel Kyoto Ekimae Hachijoguchi

Work period: January 2018 to March 2019
 Structure: Steel
 Total floor space: 17,347.79m²

Meiji Sakado Factory Bldg. 2

Work period: December 2017 to September 2019
 Structure: Steel
 Total floor space: 32,731.82m²

Toyo Shinyaku Intelligence Park Factory 1

Work period: March 2018 to May 2019
 Structure: RC
 Total floor space: 21,798.02m²

Higashi Washinomiya Hospital

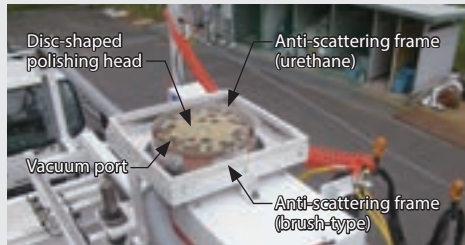

Work period: June 2017 to October 2018
 Structure: Steel
 Total floor space: 9,872.90m²

Application of Automated Polishing Equipment to Railway Infrastructure Repairs

For the first time, Okumura used its automated dry polishing equipment for repair work on railway infrastructure. The Company had developed the equipment to enhance the efficiency of concrete grinding operations in infrastructure repairs and reinforcement. The equipment provides a mechanical solution for grinding off dirt and fragile parts from concrete surfaces, a process performed manually in the past. This improves the working environment by preventing dust and particles

Polishing equipment onboard

Exterior of polishing machine

Polishing equipment in operation

from scattering, while streamlining repair work on in-service railway infrastructure subject to time constraints. Along with this model, Okumura has several other types of automated polishing equipment to meet various purposes and locations, and is actively utilizing the technology to improve the productivity of repair and reinforcement operations.

Wearable terminal
Control switch

System components

Development of Tile Inspection Support System

Regulations require that exterior tiles be thoroughly inspected on a periodic basis using hammering or other techniques to protect pedestrians from the hazard of falling tiles. Traditionally, inspection personnel conducting a tile hammering inspection manually recorded the inspection results on site, and the process, including the sorting of records, required considerable time and effort. To reduce the amount of work involved in inspection, Okumura developed a tile inspection support system.

Composed of a wearable terminal and a small sensor, the system can immediately convert inspection results such as the position of the hammering instrument and tile conditions detected by the sensor into digital data on the spot. Its superb portability saves time and effort needed for inspection operations.

Sponsorship of Osaka Women's Marathon: Supporting the Global Strides of Female Athletes from Osaka

For four years from 2018 through 2021, Okumura will be sponsoring the Osaka Women's Marathon.* Our decision to sponsor the event was driven by the athletes' dedication to the race, which mirrored and resonated with our commitment to work. In addition, the Company's contributions to the

The 37th Osaka Women's Marathon

development of Osaka and the empowerment of women have strengthened our desire to bring excitement to the streets of Osaka through the event, as well as our determination to support the global success of female athletes from Osaka.

*1 The competition has attracted attention since 2018 as part of the Marathon Grand Championship (MGC) Series, a qualifying process for the 2020 Tokyo Olympics.

Production of a TV Commercial: Communicating a Corporate Message “We Love Construction”

Okumura produced its first corporate TV commercials since the Company’s founding: “We Love Construction,” a concept commercial (with 30- and 60-second versions), and “I’m Okumura Kumi and I Love Construction,” a series commercial (in four episodes, 30 seconds each). The commercials were aired on

“I’m Okumura Kumi and I Love Construction,” first episode

“I’m Okumura Kumi and I Love Construction,” second episode

“I’m Okumura Kumi and I Love Construction,” third episode

“I’m Okumura Kumi and I Love Construction,” fourth episode

For more information, see the Commercial Gallery (Commercial videos)
<http://www.okumuragumi.co.jp/movie/>

“We Love Construction”

January 28, 2018 during the broadcast of the 37th Osaka Women’s Marathon, which the Company sponsored.

Through the corporate message “We Love Construction,” the commercial expresses Okumura’s passion and sincere commitment to construction founded on its corporate mottoes, “steadfast management” and “sincere operation.” A song entitled “Ikuzel! Ikuka! Ikoyo!”, written and composed by singer and songwriter Takehara Pistol, was used as the soundtrack. In the series commercial (“I’m Okumura Kumi and I Love Construction”), actress Aoi Morikawa plays Okumura Kumi, a female Okumura freshman, a science major who loves construction, with her skillful acting highly praised through movie and TV drama roles. The script takes place in a range of Okumura construction sites including logistics centers and tunnels.

Okumura’s Narara Komachi Won the Grand Prize at the Kensetsu-Komachi Empowerment Awards Hosted by the Japan Federation of Construction Contractors

Narara Komachi, a team of female construction workers formed at Okumura’s New Nara Medical Center joint venture construction site, won the grand prize at the 3rd Kensetsu-Komachi Empowerment Awards hosted by the Japan Federation of Construction Contractors on March 12, 2018.

Narara Komachi was headed by a female electrical engineer serving as the construction manager of the ICT system work incidental to the main construction project. In addition to improving physical environment of the workplace, harassment prevention workshops were conducted at the construction office. The award recognized these efforts to create an open and transparent workplace that allows employees to work with enthusiasm and energy, and emitting the message that women are thriving at construction sites dominated by men through on-site visits inviting a wide range of participants. The award was a second win for the Company, which won the excellence award at the 1st Kensetsu-Komachi Empowerment Awards for “Yahata Himawari,” its Kensetsu-Komachi construction team.

Kensetsu-Komachi Empowerment Awards Ceremony

Hosting a Construction Engineering Seminar

On November 1, 2017, Okumura hosted the 29th Construction Engineering Seminar at the Tokyo International Forum in Tokyo’s Chiyoda Ward. The seminar was attended by approximately 200 participants from various fields, including clients of Okumura.

Okumura began hosting the seminar in 1988 as part of a collaboration among industrial, governmental and academic sectors related to the construction industry. This year’s theme was “Preparations for a Large-scale Urban Fire” with a keynote speech delivered by Yoshiteru Murosaki, Professor and Head of Graduate School of Disaster Resilience and Governance, University of Hyogo.

During the panel discussion, lively debates were held from various perspectives on specific examples and mechanisms of earthquakes and fires and preparations for protecting lives from fire and smoke while maintaining urban functions.

Notes to Consolidated Financial Statements

Okumura Corporation and Consolidated Subsidiaries
Year Ended March 31, 2018

14

1. Basis of Presentation of Consolidated Financial Statements

The accompanying consolidated financial statements have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulations and in accordance with accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the 2017 consolidated financial statements to conform to the classifications used in 2018.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which Okumura Corporation (the "Company") is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥106.27 to \$1, the rate of exchange at March 31, 2018. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

2. Summary of Significant Accounting Policies

a. Consolidation — The consolidated financial statements as of March 31, 2018, include the accounts of the Company and its 2 (2 in 2017) significant subsidiaries (together, the "Group").

Under the control and influence concepts, those companies in which the Company, directly or indirectly, is able to exercise control over operations are fully consolidated, and those companies over which the Group has the ability to exercise significant influence are accounted for by the equity method.

Investments in 9 (9 in 2017) unconsolidated subsidiaries and 4 (3 in 2017) associated companies are stated at cost. If the equity method of accounting had been applied to the investments in these companies, the effect on the accompanying consolidated financial statements would not be material.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profit included in assets resulting from transactions within the Group is also eliminated.

b. Business Combinations — Business combinations are accounted for using the purchase method. Acquisition-related costs, such as advisory fees or professional fees, are accounted for as expenses in the periods in which the costs are incurred. If the initial accounting for a business combination is incomplete by the end of the reporting period in

which the business combination occurs, an acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, which shall not exceed one year from the acquisition, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and that would have affected the measurement of the amounts recognized as of that date. Such adjustments shall be recognized as if the accounting for the business combination had been completed at the acquisition date. The acquirer recognizes any bargain purchase gain in profit or loss immediately on the acquisition date after reassessing and confirming that all of the assets acquired and all of the liabilities assumed have been identified after a review of the procedures used in the purchase price allocation. A parent's ownership interest in a subsidiary might change if the parent purchases or sells ownership interests in its subsidiary. The carrying amount of noncontrolling interest is adjusted to reflect the change in the parent's ownership interest in its subsidiary while the parent retains its controlling interest in its subsidiary. Any difference between the fair value of the consideration received or paid and the amount by which the noncontrolling interest is adjusted is accounted for as capital surplus as long as the parent retains control over its subsidiary.

c. Cash Equivalents — Cash equivalents are short-term investments that are readily convertible into cash and exposed to insignificant risk of changes in value.

Cash equivalents include time deposits, certificates of deposit and commercial paper, all of which mature or become due within 3 months of the date of acquisition.

d. Inventories — Construction projects in progress are stated at cost, determined by the specific identification method.

Real estate held for sale and development projects in progress are stated at the lower of cost, determined by the specific identification method, or net selling value, which is defined as the selling price less additional estimated manufacturing costs and estimated direct selling expenses.

e. Marketable and Investment Securities — Marketable and investment securities are classified and accounted for, depending on management's intent, as follows:

(1) held-to-maturity debt securities, for which there is a positive intent and ability to hold to maturity, are reported at amortized cost; and

(2) available-for-sale securities, which are not classified as held-to-maturity, are reported at fair value, with unrealized gains and losses, net of applicable taxes, reported in a separate component of equity.

Nonmarketable available-for-sale securities are stated at cost determined by the moving-average method. For other-than-temporary declines in fair value, investment securities are reduced to net realizable value by a charge to income.

Investments in limited partnerships, which are considered securities under Article 2, Clause 2 of the Japanese Financial Instruments and Exchange Act, are recorded under the equity method and based on the latest consolidated financial statements available on the reportable date ruled by the partnership contracts.

f. Property, Plant and Equipment — Property, plant and equipment are stated at cost. Depreciation, except for lease assets, is computed by the declining-balance method based on the estimated useful lives of the assets, while the straight-line method is applied to buildings acquired on or after April 1, 1998 and building improvements and structures acquired on or after April 1, 2016, and lease assets. The range of useful lives is principally from 3 to 60 years for buildings and structures, from 4 to 17 years for machinery and equipment, and from 2 to 20 years for furniture and fixtures. Lease assets under finance lease arrangements are depreciated using the straight-line method over the terms of the respective leases without any salvage value.

“Accumulated depreciation” had been presented separately as a contra-asset account which is subtracted from the gross amounts of property, plant and equipment at cost in the previous years, but effective from the year ended March 31, 2018, it has been directly deducted from each asset item in order to enhance the clarity of the consolidated balance sheet. Accordingly, the consolidated financial statements for the year ended March 31, 2017 were reclassified to reflect this change in the presentation method.

Accumulated depreciation totaled ¥14,896 million (\$140,173 thousand) and ¥14,363 million as of March 31, 2018 and 2017, respectively.

g. Long-Lived Assets — The Group reviews its long-lived assets for impairment whenever events or changes in circumstance indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group. The impairment loss would be measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.

h. Allowance for Doubtful Receivables — The allowance for doubtful receivables is stated in amounts considered to be appropriate based on the Group’s past credit loss experience and an evaluation of estimated losses in the receivables outstanding.

i. Allowance for Warranty Work on Construction Projects — The allowance for warranty costs for completed work is provided at the amount of warranty costs based on past loss experience.

j. Allowance for Losses on Construction Contracts — An allowance for losses on construction contracts is provided with respect to construction projects for which eventual losses are reasonably expected and estimated.

k. Employees’ Retirement Benefits — The Company has a contributory funded pension plan covering substantially all of its employees.

The Company accounts for the liability for retirement benefits based on the projected benefit obligations and plan assets at the balance sheet date. The projected benefit obligations are attributed to periods on a benefit formula basis. Actuarial gains and losses and past service costs that are yet to be recognized in profit or loss are recognized within equity (accumulated other comprehensive income), after adjusting for tax effects, and are recognized in profit or loss over 10 years but no longer than the expected average remaining service period of the employees.

l. Asset Retirement Obligations — An asset retirement obligation is recorded for a legal obligation imposed either by law or contract that results from the acquisition, construction, development and normal operation of a tangible fixed asset and is associated with the retirement of such tangible fixed asset. The asset retirement obligation is recognized as the sum of the discounted cash flows required for the future asset retirement and is recorded in the period in which the obligation is incurred if a reasonable estimate can be made. If a reasonable estimate of the asset retirement obligation cannot be made in the period the asset retirement obligation is incurred, the liability should be recognized when a reasonable estimate of the asset retirement obligation can be made. Upon initial recognition of a liability for an asset retirement obligation, an asset retirement cost is capitalized by increasing the carrying amount of the related fixed asset by the amount of the liability. The asset retirement cost is subsequently allocated to expense through depreciation over the remaining useful life of the asset. Over time, the liability is accreted to its present value each period. Any subsequent revisions to the timing or the amount of the original estimate of undiscounted cash flows are reflected as an adjustment to the carrying amount of the liability and the capitalized amount of the related asset retirement cost.

m. Construction Contracts — Construction revenue and construction costs are recognized by the percentage-of-completion method, if the outcome of a construction contract can be estimated reliably. When total construction revenue, total construction costs and the stage of completion of the contract at the balance sheet date can be reliably measured, the outcome of a construction contract is deemed to be estimated reliably. If the outcome of a construction contract cannot be reliably estimated, the completed-contract method should be applied. When it is probable that the total construction costs will exceed total construction revenue, an estimated loss on the contract should be immediately recognized by providing for a loss on such construction contracts.

The revenues recognized by the percentage-of-completion method for the years ended March 31, 2018 and 2017 were ¥208,650 million (\$1,963,394 thousand) and ¥188,945 million, respectively.

n. Income Taxes — The provision for income taxes is computed based on the pretax income included in the consolidated statements of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted income tax rates to the temporary differences.

o. Derivatives and Hedging Activities — The Group uses derivative financial instruments to manage its exposures to fluctuations in foreign exchange and interest rates. Currency and interest rate swaps are utilized by the Group to reduce foreign currency exchange and interest rate risks. The Group does not enter into derivatives for trading or speculative purposes.

Currency and interest rate swaps that qualify for hedge accounting and meet specific matching criteria are not remeasured at market value, but the differential paid or received under the swap agreements is recognized and included in interest expense or income, and hedge items denominated in a foreign currency are translated at the contracted rates.

p. Per Share Information — Basic net income per share is computed by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding for the period, retroactively adjusted for stock splits.

Diluted net income per share is not disclosed because there are no securities with a dilutive effect upon exercise or conversion into common stock.

Cash dividends per share presented in the accompanying consolidated statement of income are dividends applicable to the respective fiscal years, including dividends to be paid after the end of the year.

The Company implemented a consolidation of shares at the rate of five shares to one share of the Company's common stock effective October 1, 2017 based on the resolution at the annual shareholders' meeting held on June 29, 2017. Per share figures have been calculated on the assumption that the consolidation of shares was implemented at the beginning of the previous fiscal year.

q. Accounting Changes and Error Corrections — Under Accounting Standards Board of Japan ("ASBJ") Statement No. 24, "Accounting Standard for Accounting Changes and Error Corrections," and ASBJ Guidance No. 24, "Guidance on Accounting Standard for Accounting Changes and Error Corrections," accounting treatments are required as follows:

(1) Changes in Accounting Policies:

When a new accounting policy is applied following revision of an accounting standard, the new policy is applied retrospectively unless the revised accounting standard includes specific transitional provisions, in which case the entity shall comply with the specific transitional provisions.

(2) Changes in Presentation:

When the presentation of financial statements is changed, prior-period financial statements are reclassified in accordance with the new presentation.

(3) Changes in Accounting Estimates:

A change in an accounting estimate is accounted for in the period of the change if the change affects that period only, and is accounted for prospectively if the change affects both the period of the change and future periods.

(4) Corrections of Prior-Period Errors:

When an error in prior-period financial statements is discovered, those statements are restated.

r. New Accounting Pronouncements — On March 30, 2018, the ASBJ issued ASBJ Statement No. 29, "Accounting Standard for Revenue Recognition," and ASBJ Guidance No. 30, "Implementation Guidance on Accounting Standard for Revenue Recognition." The core principle of the standard and guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity should recognize revenue in accordance with that core principle by applying the following steps:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

The accounting standard and guidance are effective for fiscal years beginning on or after April 1, 2021. Earlier application is permitted for fiscal years beginning on or after April 1, 2018.

The Company expects to apply the accounting standard and guidance for fiscal years beginning on or after April 1, 2021, and is in the process of measuring the effects of applying the accounting standard and guidance in future applicable periods.

3. Marketable and Investment Securities

Marketable and investment securities as of March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Non-current:			
Marketable equity securities	¥73,009	¥64,451	\$687,017
Government and corporate bonds	120	118	1,125
Non-marketable equity securities and other	1,393	1,395	13,113
Total	¥74,522	¥65,964	\$701,255

The costs and aggregate fair values of marketable and investment securities at March 31, 2018 and 2017, were as follows:

	Millions of yen			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
March 31, 2018				
Securities classified as:				
Available-for-sale:				
Equity securities	¥24,900	¥48,180	¥71	¥73,009
Held-to-maturity:				
Debt securities	120	5	—	125

March 31, 2017

Securities classified as:				
Available-for-sale:				
Equity securities	¥24,971	¥39,528	¥48	¥64,451
Held-to-maturity:				
Debt securities	118	7	—	125

	Thousands of U.S. dollars			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
March 31, 2018				
Securities classified as:				
Available-for-sale:				
Equity securities	\$234,312	\$453,376	\$671	\$687,017
Held-to-maturity:				
Debt securities	1,125	48	—	1,173

The information for available-for-sale securities which were sold during the years ended March 31, 2018 and 2017 is as follows:

	Millions of yen		
March 31, 2018	Proceeds	Realized Gains	Realized Losses
Available-for-sale:			
Equity securities	¥400	¥181	¥—

	Millions of yen		
March 31, 2017	Proceeds	Realized Gains	Realized Losses
Available-for-sale:			
Equity securities	¥498	¥37	¥56

	Thousands of U.S. dollars		
March 31, 2018	Proceeds	Realized Gains	Realized Losses
Available-for-sale:			
Equity securities	\$3,760	\$1,700	\$—

No impairment losses were recognized on securities for the years ended March 31, 2018 and 2017.

4. Inventories

Inventories at March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Construction projects in progress	¥ 5,548	¥ 6,520	\$52,204
Real estate held for sale	705	322	6,638
Development projects in progress	3,215	3,391	30,254
Other	908	530	8,543
Total	¥10,376	¥10,763	\$97,639

5. Investment Property

The Group owns certain rental properties such as residential buildings, warehouses, and land in Osaka and other areas. Some rental warehouses leased to third parties, of which the Company utilizes a part, are classified as rental properties in part.

The net of rental income and operating expenses for those rental properties was ¥2,969 million (\$27,935 thousand) and ¥2,905 million for the years ended March 31, 2018 and 2017, respectively.

In addition, the carrying amounts, changes in such balances and market prices of such properties were as follows:

	Carrying Amount			Fair Value
	April 1, 2017	Increase/Decrease	March 31, 2018	March 31, 2018
Rental properties	¥32,209	¥353	¥32,562	¥57,474
Rental properties in part	337	915	1,252	2,019
Total	¥32,546	¥1,268	¥33,814	¥59,493

	Carrying Amount			Fair Value
	April 1, 2016	Increase/Decrease	March 31, 2017	March 31, 2017
Rental properties	¥31,443	¥766	¥32,209	¥56,882
Rental properties in part	829	(492)	337	1,126
Total	¥32,272	¥274	¥32,546	¥58,008

	Carrying Amount			Fair Value
	April 1, 2017	Increase/Decrease	March 31, 2018	March 31, 2018
Rental properties	\$303,085	\$3,324	\$306,409	\$540,826
Rental properties in part	3,177	8,604	11,781	18,998
Total	\$306,262	\$11,928	\$318,190	\$559,824

Notes:

- (1) Carrying amount recognized in the consolidated balance sheets is net of accumulated depreciation and accumulated impairment losses, if any.
- (2) Fair value of properties as of March 31, 2018 and 2017 is measured in accordance with real-estate appraisal performed by real-estate appraisers for primary properties. The amount measured by the Group is in accordance with its Real-Estate Appraisal Standard for other properties (including those measured using indicators).

6. Short-Term Bank Loans and Long-Term Debt

Short-term bank loans at March 31, 2018 and 2017, consisted of notes to banks and bank overdrafts. The annual interest rates applicable to the short-term bank loans ranged from 0.7% to 2.8% at March 31, 2018 and 0.7% to 1.5% at March 31, 2017.

Long-term debt at March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of
	2018	2017	U.S. dollars
Loans from banks and other financial institutions, due serially to 2031 with interest rates ranging from 0.6% to 3.5%			
Collateralized	¥ 0	¥2,001	\$ 3
Unsecured	3,149	3,164	29,627
Obligations under finance leases	10	24	98
Total	3,159	5,189	29,728
Less current portion	(14)	(4,023)	(137)
Long-term debt, less current portion	¥3,145	¥1,166	\$29,591

Annual maturities of long-term debt, excluding finance leases (see Note 11), at March 31, 2018, were as follows:

Year Ending March 31	Millions of yen	Thousands of
2019	¥ 7	\$ 68
2020	7	65
2021	1,107	10,416
2022	6	52
2023	2,004	18,859
2024 and thereafter	18	170
Total	¥3,149	\$29,630

The carrying amounts of assets pledged as collateral for the above collateralized long-term debt at March 31, 2018, was as follows:

	Millions of yen	Thousands of
Property, plant and equipment—net of accumulated depreciation	¥154	\$1,453

As is customary in Japan, the Company maintains substantial deposit balances with banks with which it has borrowings. Such deposit balances are not legally or contractually restricted as to withdrawal.

General agreements with respective banks provide, as is customary in Japan, that additional collateral must be provided under certain circumstances if requested by such banks and that certain banks have the right to offset cash deposited with them against any long-term or short-term debt or obligation that becomes due and, in case of default and certain other specified events, against all other debt payable to the banks. The Group has never been requested to provide any additional collateral.

7. Employees' Retirement Benefits

Most of the employees of the Company are covered by a contributory trusted pension plan.

The Company has a cash balance plan (pension plan linked to the market interest rates) based on the Defined Benefit Corporate Pension Law.

(1) The changes in defined benefit obligations for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Balance at beginning of year	¥21,730	¥22,399	\$204,475
Current service cost	1,102	1,083	10,380
Interest cost	109	112	1,022
Actuarial losses	23	52	220
Benefits paid	(1,768)	(1,916)	(16,640)
Balance at end of year	¥21,196	¥21,730	\$199,457

(2) The changes in plan assets for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Balance at beginning of year	¥23,844	¥24,556	\$224,373
Expected return on plan assets	214	221	2,019
Actuarial gains	366	44	3,446
Contributions from the employer	949	939	8,929
Benefits paid	(1,768)	(1,916)	(16,640)
Balance at end of year	¥23,605	¥23,844	\$222,127

(3) Reconciliation between the liability recorded in the consolidated balance sheet and the balances of defined benefit obligation and plan assets was as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Defined benefit obligation	¥21,196	¥ 21,730	\$199,457
Plan assets	(23,605)	(23,844)	(222,127)
Total	(2,409)	(2,114)	(22,670)
Unfunded defined benefit obligation	—	—	—
Net asset arising from defined benefit obligation	¥(2,409)	¥(2,114)	\$(22,670)

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Asset for retirement benefits	¥(2,409)	¥(2,114)	\$(22,670)
Net asset arising from defined benefit obligation	¥(2,409)	¥(2,114)	\$(22,670)

(4) The components of net periodic benefit costs for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Service cost	¥1,102	¥1,083	\$10,380
Interest cost	109	112	1,022
Expected return on plan assets	(214)	(221)	(2,019)
Recognized actuarial gains	(115)	(133)	(1,081)
Amortization of past service costs	(21)	(21)	(199)
Net periodic benefit costs	¥ 861	¥ 820	\$ 8,103

(5) Amounts recognized in other comprehensive income (before income tax effect) in respect of defined retirement benefit plans for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Actuarial gains (losses)	¥228	¥(140)	\$2,146
Past service costs	(21)	(21)	(199)
Total	¥207	¥(161)	\$1,947

(6) Amounts recognized in accumulated other comprehensive income (before income tax effect) in respect of defined retirement benefit plans as of March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Unrecognized actuarial gains	¥(2,876)	¥(2,648)	\$(27,063)
Unrecognized past service costs	—	(21)	—
Total	¥(2,876)	¥(2,669)	\$(27,063)

(7) Plan assets

a. Components of plan assets

Plan assets as of March 31, 2018 and 2017, consisted of the following:

	2018	2017
Debt investments	44%	45%
Equity investments	11	10
Life insurance general account assets	32	32
Others	13	13
Total	100%	100%

b. Method of determining the expected rate of return on plan assets

The expected rate of return on plan assets is determined considering allocation of plan assets which are expected currently and in the future and the long-term rates of return which are expected currently and in the future from the various components of the plan assets.

(8) Assumptions used for the years ended March 31, 2018 and 2017, are set forth as follows:

	2018	2017
Discount rate	0.5%	0.5%
Expected rate of return on plan assets	0.9	0.9

8. Equity

Japanese companies are subject to the Companies Act of Japan (the "Companies Act"). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

a. Dividends

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting. Additionally, for companies that meet certain criteria including (1) having a Board of Directors, (2) having independent auditors, (3) having an Audit & Supervisory Board, and (4) the term of service of the directors being prescribed as one year rather than the normal two-year term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends-in-kind) at any time during the fiscal year if the Company has prescribed so in its articles of incorporation. However, the Company does not meet all the above criteria.

The Companies Act permits companies to distribute dividends-in-kind (noncash assets) to shareholders subject to a certain limitation and additional requirements.

Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the Company so stipulate. The Companies Act provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3 million.

b. Increases/Decreases and Transfer of Common Stock, Reserve and Surplus

The Companies Act requires that an amount equal to 10% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus), depending on the equity account charged upon the payment of such dividends, until the aggregate amount of legal reserve and additional paid-in capital equals 25% of the common stock. Under the Companies Act, the total amount of additional paid-in capital and legal reserve may be reversed without limitation. The Companies Act also provides that common stock, legal reserve, additional paid-in capital, other capital surplus and retained earnings can be transferred among the accounts within equity under certain conditions upon resolution of the shareholders.

c. Treasury Stock and Treasury Stock Acquisition Rights

The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders which is determined by a specific formula. Under the Companies Act, stock acquisition rights are presented as a separate component of equity. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

The Company implemented a consolidation of shares at the rate of five shares to one share of the Company's common stock effective October 1, 2017 based on the resolution of the annual shareholders' meeting held on June 29, 2017.

9. Income Taxes

The Group is subject to Japanese national and local income taxes which, in the aggregate, resulted in a normal effective statutory tax rate of approximately 30.8% for the years ended March 31, 2018 and 2017.

The tax effects of significant temporary differences and tax loss carryforwards which resulted in deferred tax assets and liabilities at March 31, 2018 and 2017, are as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Deferred tax assets:			
Impairment losses on securities	¥ 2,149	¥ 2,169	\$ 20,218
Write-down of inventories	1,359	1,296	12,791
Allowance for bonuses	1,305	1,358	12,284
Allowance for doubtful accounts	879	953	8,275
Allowance for losses on construction contracts	718	1,036	6,752
Tax loss carryforwards	357	1,863	3,358
Accrued expenses	317	384	2,979
Other	503	432	4,732
Less valuation allowance	(4,871)	(7,653)	(45,832)
Total	2,716	1,838	25,557
Deferred tax liabilities:			
Net unrealized gains on available-for-sale securities	(13,256)	(10,719)	(124,735)
Retained earnings appropriated for special allowance	(1,716)	(1,646)	(16,149)
Asset for retirement benefits	(737)	(647)	(6,937)
Total	(15,709)	(13,012)	(147,821)
Net deferred tax liabilities	¥(12,993)	¥(11,174)	\$ (122,264)

A reconciliation between the normal effective statutory tax rates and the actual effective tax rates reflected in the accompanying consolidated statement of income for the year ended March 31, 2018, with the corresponding figures for 2017, is as follows:

	2018	2017
Normal effective statutory tax rate	30.8%	30.8 %
Expenses not deductible for income tax purposes	0.4	0.5
Non-taxable income	(0.5)	(0.5)
Inhabitant tax per capita	0.8	0.9
Special income tax credits	(2.2)	(1.5)
Valuation allowance	(16.0)	(32.6)
Other—net	0.5	(0.1)
Actual effective tax rate	13.8%	(2.5)%

10. Research and Development Costs

Research and development costs charged to income were ¥1,080 million (\$10,164 thousand) and ¥866 million for the years ended March 31, 2018 and 2017, respectively.

11. Leases

(1) Finance leases

The Group leases certain machinery and equipment, office space and other assets.

Total rental expenses including lease payments under finance leases for the years ended March 31, 2018 and 2017, were ¥13 million (\$122 thousand) and ¥20 million, respectively.

Obligations under finance leases at March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Due within one year	¥7	¥14	\$69
Due after one year	3	10	29
Total	¥10	¥24	\$98

(2) Operating leases

Future minimum lease receivables or payments under noncancelable operating leases at March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
As a lessor:			
Due within one year	¥ 2,279	¥ 2,242	\$ 21,446
Due after one year	15,004	15,602	141,183
Total	¥17,283	¥17,844	\$162,629
As a lessee:			
Due within one year	¥ 86	¥ 95	\$ 807
Due after one year	673	752	6,335
Total	¥ 759	¥ 847	\$ 7,142

12. Financial Instruments and Related Disclosures

(1) Group policy for financial instruments

At the Group level, cash surpluses, if any, are invested in low-risk financial assets. Short-term bank loans are used to fund its ongoing operations. Derivatives are used, not for speculative purposes, but to manage its exposure to fluctuations in foreign currency exchange and interest rates.

(2) Nature and extent of risks arising from financial instruments

Receivables, such as trade notes and trade accounts, are exposed to customer credit risk. Marketable and investment securities, mainly held-to-maturity securities and equity instruments of customers and suppliers of the Group, are exposed to the risk of market price fluctuations.

Payment terms of payables, such as trade notes and trade accounts, are mostly less than one year.

(3) Risk management for financial instruments

Credit risk management

Credit risk is the risk of economic loss arising from a counterparty's failure to repay or service debt according to the contractual terms. The Group manages its credit risk from receivables on the basis of internal guidelines, which include continuously determining customers' circumstances from the phase of accepting orders to that of collection of the receivables, along with monitoring of payment terms and balances of each transaction.

Market risk management (foreign exchange risk and interest rate risk)

Marketable and investment securities are managed by monitoring market values and financial position of issuers on a regular basis. Also, the Group continuously reviews its possession of those securities, except for held-to-maturity securities.

Long-term debt denominated in foreign currencies is exposed to fluctuations in market interest rates and foreign exchange rates. The Group utilizes derivative instruments (currency and interest rate swaps contracts) as hedging instruments to manage these market risks. The hedge accounting method is described in Note 2.o.

Please see Note 14 for more details about derivatives.

Liquidity risk management

Liquidity risk comprises the risk that the Group cannot meet its contractual obligations in full on maturity dates. The Group manages its liquidity risk by making the appropriate cash schedule on a monthly basis.

(4) Fair values of financial instruments

Fair values of financial instruments are based on quoted prices in active markets. If a quoted price is not available, another rational valuation technique is used instead.

(a) Fair value of financial instruments

	Millions of yen		
	Carrying Amount	Fair Value	Unrealized Gain/Loss

Long-term debt—lease obligation including current portion	99	97	(2)
Total	\$ 693,972	\$ 694,019	\$47

Amounts due from unconsolidated subsidiaries and associated companies are included in receivables—trade notes and accounts and long-term loans receivable.

Cash and cash equivalents and time deposits

The carrying values of cash and cash equivalents and time deposits approximate fair value because of their short maturities.

Marketable securities and investment securities

The fair values of marketable securities and investment securities are measured at the quoted market price of the stock exchange for the equity instruments and at the quoted price obtained from the financial institution for certain debt instruments. Fair value information for the marketable securities and the investment securities by classification is included in Note 3.

Receivables—trade notes and accounts and long-term loans receivable

The fair values of receivables—trade notes and accounts and long-term loans receivable are measured at the amount to be received at maturity, discounted at the Group's assumed corporate discount rate, such as the rate of national bonds at maturity. Also, the amounts of the allowance for doubtful receivables are deducted from the fair values.

Payables—trade notes and accounts and short-term bank loans

The carrying values of payables—trade notes and accounts and short-term bank loans approximate fair value because of their short maturities.

Long-term debt—lease obligation

The fair values of long-term debt—lease obligation are determined by discounting the cash flows related to the debt at the Group's assumed corporate borrowing rate.

Long-term bank loans

The fair values of long-term bank loans are determined by the present value calculated by discounting the total amount of the principal and interest expense at the interest rate considering the remaining maturities of the loans and credit risk of the Company.

Derivatives

Fair value information for derivatives is included in Note 13.

(b) Carrying amount of financial instruments whose fair value cannot be reliably determined

	Millions of yen		Thousands of U.S. dollars

Please see Note 6 for annual maturities of long-term debt and Note 11 for obligations under finance leases.

13. Derivatives

The Group enters into derivatives, in the normal course of business, to reduce the exposure to fluctuations in foreign exchange and interest rates. The primary classes of derivatives used by the Group are foreign currency forward contracts, currency and interest rate swaps.

The Group does not hold or issue derivatives for trading purposes.

Because the counterparties to these derivatives are limited to major financial institutions, the Group does not anticipate any losses arising from credit risk.

Derivative transactions entered into by the Group have been made in accordance with internal policies which regulate the authorization and credit limit amount.

Derivative transactions to which hedge accounting is not applied:

There were no derivative transactions to which hedge accounting is not applied at March 31, 2018 and 2017.

Derivative transactions to which hedge accounting is applied:

There were no derivative transactions to which hedge accounting is applied at March 31, 2018.

				Millions of yen	
March 31, 2017	Hedged item	Contract amount	Contract amount due after one year	Fair value	
Currency and interest rate swaps	Short-term				
Floating-rate receipt, fixed-rate payment	bank loans	¥2,000	¥—	Note	
Receipt in U.S. dollars, payment in yen					

Note:

Currency and interest rate swaps which qualify for hedge accounting and meet specific matching criteria are not remeasured at market value but the differential paid or received under the swap agreement is recognized and included in interest expense or income. The fair value of such currency and interest rate swaps is included in those of the hedged items (i.e., short-term bank loans) in Note 12.

14. Commitments and Contingent Liabilities

Land in the amount of ¥21 million (\$196 thousand) is pledged for a deposit received from a lessee related to a fixed-term land leasehold at March 31, 2018. Land in the amount of ¥1,458 million (\$13,722 thousand) and buildings in the amount of ¥1,194 million (\$11,232 thousand) are pledged as construction assistance funds pursuant to building lease contracts at March 31, 2018. Investment securities in the amounts of ¥120 million (\$1,125 thousand), ¥16 million (\$149 thousand) and ¥53 million (\$494 thousand) are pledged as collateral for the guarantee against defect of the house construction, contract performance obligation of the private finance initiative (PFI) business, and the loans of an affiliate, respectively, at March 31, 2018.

15. Other Comprehensive Income

The components of other comprehensive income for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. Dollars
	2018	2017	2018
Unrealized gain on available-for-sale securities			
Gain arising during the year	¥ 8,685	¥ 141	\$ 81,724

Income tax effect	(90)	13	(849)
Total	¥ 117	¥(148)	\$ 1,098
Total other comprehensive income	¥ 6,209	¥ 269	\$ 58,425

16. Subsequent Events

Appropriation of Retained Earnings

The following appropriation of retained earnings at March 31, 2018, was approved at the Company's shareholders' meeting held on June 28, 2018:

	Millions of yen	Thousands of U.S. dollars
Year-end cash dividends, ¥184 (\$1.73) per share	¥7,329	\$68,968

17. Segment Information

1. Description of Reportable Segments

The Group's reportable segments are those for which separate financial information is available and regular evaluation by the Company's management is being performed in order to decide how resources are allocated among the Group. Therefore, the Group's reportable segments consist of "Civil engineering," "Architectural construction," and "Real estate."

2. Methods of measurement for the amounts of sales, profit, assets, liabilities and other items for each reportable segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2, "Summary of Significant Accounting Policies."

3. Information about sales, profit, assets, liabilities and other items is as follows:

								Millions of yen	
								2018

Notes:

1. "Other" is a business segment which is not included in any reportable segment and includes business related to manufacturing and sale of construction machinery and materials.
2. Reconciliations to segment profit in the amount of ¥13 million (\$126 thousand) and ¥10 million for the years ended March 31, 2018 and 2017, respectively, include eliminations of intersegment transactions.
3. The consolidated amounts of segment profit above correspond to the amounts of operating income in the consolidated statements of income.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Okumura Corporation:

We have audited the accompanying consolidated balance sheet of Okumura Corporation and its consolidated subsidiaries as of March 31, 2018, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Okumura Corporation and its consolidated subsidiaries as of March 31, 2018, and the consolidated results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.
